**Connect Tech Inc.**

SMART Battery Adapter

Connect Tech's Smart Battery Adapter allows for easy integration of a SMART battery into an existing PC/104 system. Used in combination with the Xtreme/PSU-UPS power supply it provides a complete Power Supply solution with uninterrupted power supply and battery backup functionality.

Use a SMART Battery System when you need to monitor battery type, discharge or charge rate, overall system health or implement an almost-discharged alarm to ensure your portable system can shut down gracefully. This information and more communicated over the SMBus on the Connect Tech Xtreme/PSU-UPS power supply.
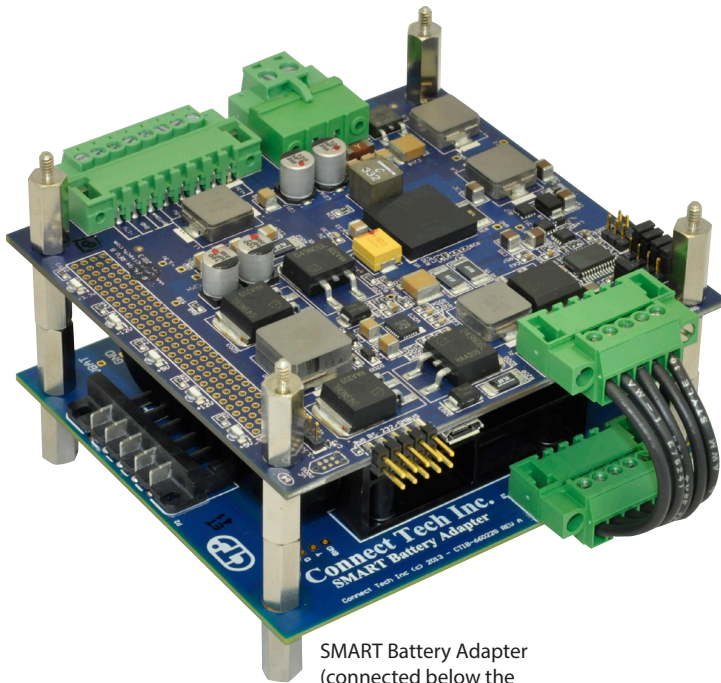

Product Name: SMART Battery Adapter
Part Number: ADG061
