

FOR IMMEDIATE RELEASE

Connect Tech adds Optical Isolation to PC/104-Plus

GUELPH, ON – September 28, 2007 – Connect Tech's robust Xtreme/104-Plus product family now adds optical isolation.

The embedded computer standard of PC/104-Plus combines the best of the Universal PCI bus with the rugged and compact form factor of PC/104. With the addition of 3kV optical isolation protection, Xtreme/104-Plus Opto offers the ultimate communications solution for any mission critical application exposed to harsh conditions.

The stackable, small form factor of PC/104-Plus is low on power consumption and rugged in performance. Designed to operate within a -40°C to 85°C temperature range and coupled with 3kV optical isolation, Xtreme/104-Plus Opto is an attractive application solution for the Industrial and Embedded PC market.

Fully PC/104-Plus compliant, the Xtreme/104-Plus Opto retains reliability in the harshest of environments. Model options include two or four jumper selectable RS-232/422/485 ports. The RS-422/485 interface supports full duplex, half duplex and multi-drop communication modes. Ports can be configured independently for baud rate, parity, data and stop bits. Maximum baud rates are 1.8432 Mbps (RS-422/485) and 921.6 Kbps (RS-232).

The Xtreme/104-Plus Opto includes Connect Tech's standard lifetime warranty and free technical support. For more information about Xtreme/104-Plus Opto or any other Connect Tech products, please contact sales@connecttech.com.

About Connect Tech:

Since 1985, Connect Tech has provided high quality, cost-effective connectivity solutions worldwide. Committed to excellence in both product design and customer service, Connect Tech continues to build on a reputation for manufacturing superior performance communication solutions for mission critical applications.

Designer and manufacturer of multi-port serial adapters, flash drives, FPGA & Digital I/O products, external wireless radio modems, design & debugging tools and Ethernet-to-serial devices, Connect Tech's commitment to customer satisfaction is demonstrated by our ongoing willingness to comply with important product certifications and approvals, the best warranty in industry and free technical support.
